Introduction

1.1 Objective of this Health and Safety Commitment Statement

This Lake Lynden Lodge Health and Safety Commitment Statement has been written:

To support Health and Safety compliance

To remind lodge users and others present at this complex of their health and safety responsibilities

Developed so that if any person using or present at the lodge or activities associated with the lodge does have an accident, and is harmed, it would be in spite of **'all reasonable practicable steps'** having been taken, rather than because one was omitted

1.2 Plan Review

To meet the Lodge's ever changing environment and legislative requirements this Health and Safety commitment statement is a **"living statement"** and will be reviewed and updated to reflect such changes as necessary
